CS735

PCR

The Maxxis CS735 is an all-round performer when it comes to passenger car tyres. Its optimised tread width design improves overall traction and handling for increased driver and occupant safety. Furthermore, the tyre has four circumferential grooves that improve hydroplaning resistance and wet weather performance. The rib-style pattern design improves tread wear and minimises pattern noise.

FEATURES & BENEFITS

1. Optimised tread width design improves overall traction and handling for increased driver and occupant safety.

2. Four circumferential grooves that improve hydroplaning resistance and wet weather performance.
