

# UE100

LT

The Maxxis UE100 is a premium light-truck tyre designed for durability, stability and reliability – all necessary features for today’s tradesman. Its three zig-zag tread grooves ensure exceptional stability and water evacuation for handling in wet weather conditions.

## FEATURES & BENEFITS

- 1 Three zig-zag grooves provide outstanding water drainage.
- 2 Spiral cap construction provides high speed straight line stability.
- 3 Tread compound formulation offers good abrasion resistance.
- 4 Special profile design for commercial van applications.

## DRIVING APPLICATION
